### Program Goals

This program is designed to examine all aspects of The Beatles (their songs, films, album concepts, fiction, poetry, theater, essays, cartoons and more) and try to discover:

- What kind of impact was made on our culture and the world?
- Why this phenomenon even happened? How did it happen?
- Why were they so much more important than other rock groups in the 60s or since?
- How did they help shape the sixties and an entire generation?
- Why are they just as popular in the 21st century as best selling artists as they were in the last century?
